ASHBURY

Your Official Ashbury Homeowner Association Newsletter

From the Board

Submitted by Patrick Collins | HOA President

Summer is in full swing. The board hopes everyone is enjoying the pool. Over the last three years, I have seen many new neighbors and love seeing lots of young families enjoying the pool and joining the swim team.

As new homeowners move in, we need to start getting more families involved in social activities. Lorna London has been our social chairman for many years. Lorna has done an outstanding job over the years and is also a Director on our Board for the homeowners association, while also working a full-time job. A lot of our social events are geared towards young children from Breakfast with Santa, Easter Egg Hunt, Halloween Party and Fun Fest.

It would be wonderful to recruit some new volunteers to get involved with new ideas to implement activities for families and adults in Ashbury.

Ideally, it would be instrumental for new families to get involved and possibly consider taking over one of these events. This is a great opportunity to meet new people in our neighborhood and possibly create new events or change up one of the existing events. If you or some of your friends are interested, please send an email to stacy@mcpmc.com.

Please step up and invite your friends to help in coordinating fun social events in Ashbury. We live in an outstanding family-friendly neighborhood. We welcome your involvement!

Have a great summer!

Adorable Adoptable Pets of the Month...

Caz | Male | 2.5 Years Old | 69 lbs. | Adoption fee: Waived

Hi everyone. I'm Caz, a big mixed breed, affectionate, athletic, curious, smart guy looking for my forever home with an active person/family as I am people friendly and kids over 16 because of my size. If you've been thinking about how much fun it would be to have a walking/hiking/jogging companion, I'm your boy. How about a partner to fetch a tennis ball or play frisbee? Count me in. Really, whatever the activity, I'll be up for it. But I'm not all about exercise and play, I'm also a lover. Nothing would make me happier than lying next to you on the couch, with your hand stroking my soft fur as we watch sports (Go Bears!), binge-watch Netflix (even Bridgerton), and share snacks (like beef jerky). When we're out and about in the neighborhood, you'll find I make friends with every human I meet. I'm more selective about canines, preferring larger dogs who tolerate my "bossy" play style. The volunteers at NAHS have taught me several commands, like sit, down, and come, and tell me how smart I am. It would be terrific if you'd sign us up for obedience classes—I promise to be a fast-learner and make you proud of me. I'm already smiling in anticipation of your visit! Love and licks, Caz.

Lucas | Male | Est. DOB 3/28/20 | Adoption fee: \$100

I'm a very handsome fellow who tends to be a little independent. I like affection and petting in small doses. My favorite is for you to rub my ear pits, nose and chin. While I could use some brushing, I also need that in small doses until I get more used to it. I think our love will be on the fast track if you give me treats (hint hint). I'm pretty laid back and like to climb a cat tower and look out the window. As I explore my new home, you'll hear me make loud sniffing noises — that's just me taking it all in. Come see me in all my glory and make room for me in your life.

Summer Watering Tips

THE HAPPY GARDENER

The Growing Place

Gardens and landscaping are an investment in your home. Time and money go into finding the right plants for the right places, then caring for them to keep them healthy and strong. The U.S. Drought Monitor currently lists DuPage, Will and Kane counties as having abnormally dry to moderate drought conditions. Only heavy, sustained rains count for watering plants naturally. Here are tips on watering properly in different conditions to reduce plant stress for long-term success.

WATERING NEW PLANTINGS

Plants installed this year have higher water needs because their root systems have not grown much further than the original pot area. It's best to water your new plantings by hand.

First Day — Water the roots, not leaves, slowly and deeply after planting.

Week 1 — Check daily. Only water when soil is dry about 1"-2" under the surface, watering slow and deeply. (Test with your finger or a moisture meter.)

Week 2 — Check every 2 days. Only water when soil is dry about 1"-2" under the surface, watering slow and deeply.

Week 3 — Check every 3 days. Only water when soil is dry about 1"-2" under the surface, watering slow and deeply.

Ongoing — During the rest of the season, check at least once a week.

WATERING EXISTING PLANTINGS

Water plants if we have not had significant rain in 2 weeks. Plants installed the previous year, or ones that require more frequent watering will need a little

extra attention. If no rain continues, water again when the soil is dry 1"-2" below the soil surface. Make sure water gets through the mulch into the soil.

A portable 10-foot section soaker hose is efficient and can easily be moved to water all sides of the plants. If using a sprinkler, use a rain gauge and water long enough to equal an inch of rain, preferably in the morning. If you have an automatic sprinkler, set it for 40 minutes twice a week instead of everyday. Plants do better with deeper, less frequent watering.

WATERING IN DROUGHT CONDITIONS

Drought conditions bring slower growth and increased susceptibility to diseases. Symptoms of drought include wilting, leaf color change, leaf drop, and even death. Interestingly, too much water can cause similar symptoms. Tree & Shrub Manager Eric Gundersen says "The more established trees have more reserves, drawing from a larger area with their bigger root system. Be cautious with the 1, 2 and 3 year old trees that are younger and actively growing. You may think they are established if planted in the last year or two, but their root systems are young yet and have not spread out as much. They need supplemental watering."

It's a good idea to put a rain gauge under your sprinklers because you don't really know how much water they are putting out. Generally, you want 1" of water a week for trees. It is better to water deeper infrequently than watering lightly more often. Light watering promotes shallow roots, which are more prone to stress during drought and high

temperatures. Watering deeply encourages roots to grow deeper. Water the tree drip line and beyond, encouraging the roots to grow out.

WATERING TIPS FROM THE PROFESSIONALS

Know your plant's moisture needs. Some plants need more water than others. Plants under trees may require more water.

When soil feels dry water slowly and deeply. Allow the water to pool and sink in at least three times. Be sure to water out past the edge of plants. Watering deeply encourages roots to grow deeper.

Break up mulch. If you have shredded mulch over your beds, you may need to break up the crust to get water through to the soil.

Water at the base of plants to keep water off the leaves. This reduces diseases.

Water in the morning. This prevents water from evaporating into the air on hot days, and gives foliage time to dry, especially if using sprinklers.

TOO MUCH OR TOO LITTLE?

Limp, hanging or yellowing leaves may indicate either too much or too little water. Check the soil two inches under the mulch.

If it is dry, water the ground slowly and deeply. If it is wet, do not water until the soil has had time to dry out. If it is really wet, you can thin or loosen the layer of mulch to help air get in and dry out the soil. Do not water until soil has had time to dry out below the surface. Plants need air as well as moisture.

**Naperville is a Safe Community...
It's not a Crime-Free Community!**

LOCK IT UP!

Did you know that in 2022 there were 137 reported burglaries to motor vehicle incidents in Naperville and 91% of those were no force entries? That means the vehicles were UNLOCKED. Additionally, of the 50 motor vehicles that were stolen in Naperville in 2022, most of them had their keys left inside.

In many cases, these are preventable crimes. Take a few simple steps so you won't become another statistic.

DO ...

- Always lock your doors.
- Always close windows and sunroofs.
- Park in a well-lit area.
- Place any property out of sight before you get to your destination.
- Unload your valuables immediately when you return home.

DON'T ...

- Leave your purse or wallet in your car.
- Leave possessions out in plain view.
- Hide possessions under the seats; it is the first place burglars check for stored items.
- Cover items left on the seat or floorboard of your car; blankets and articles of clothing present a clue to thieves that items may be hidden underneath.
- Leave any important documents in your car that contain your personal information.
- Hide a spare key on your car; thieves know where to look.

How to solve sudoku puzzles

No math is required to solve a sudoku. You only need logic and patience.

Simply make sure that each 3x3 square region has only one instance of the numbers 1-9. Similarly, each number can only

appear once in a column or row in the larger grid. The difficulty on this puzzle is easy.

Here is why you hire her:

I absolutely recommend Terri to anyone and everyone who is looking to buy or sell! We have now enlisted her services for both and she is just amazing! She is just so knowledgeable on the entire process from what catches a buyers eye to take a look at your house, to what the right sale price is based upon comparables in the area, to when and how to respond to each offer so as to place and keep you in the best negotiating position. Not to mention, her responses are more timely than you could ask for! And during the stress of buying and selling, that is worth it's weight in gold! Trust me, Terri is who you want. Period.

Reviews from my Clients

"We came to Tamara after being with a previous agent and it was the BEST decision we made. She SOLD our house in ONE DAY! We Highly Recommend her to anyone"

★★★★★

"Tamara is the BEST! Not only is she a professional at what she does; she is the most conscientious caring and honest person I have ever met. My home was on the market with another agent for months who did not market very well. When we switched realtors our experience was completely different. With a few changes and staging our home we had better offers and her level of care and attention to detail was phenomenal. I could call Tamara up anytime and she was always available."

★★★★★

"Tamara is Epitome of professionalism. She does her research and brings enormous knowledge and expertise to a home seller. She walks a client through details of a home sale with enthusiasm and positive thinking. She will stage your home & home photography will be outstanding. Through Tamara's guidance I had three offers in 4 days I cannot thank her enough. I cannot thank her enough. She is wonderful Realtor and Great Person to know"
